INSTRUCTIONS FOR USE Pro-Ject Power Box DS2 Sources

Dear music lover,

Thank you for purchasing a Pro-Ject Audio Systems Power Box DS2 Sources.

In order to achieve maximum performance and reliability you should study these instructions for use carefully.

Warning of a hazard for the user, the unit or possible misuse

Important notice

Safety instructions

AC outlet voltages vary from country to country. Before connecting to the mains, make sure that the voltage in your area meets the voltage requirements printed on the device.

Never handle the device while your hands are wet or damp. Avoid letting liquids enter the device. Never place any item containing liquid, such as a flower vase on or near the device. Never spill any liquid on the device. Never place any naked flame sources, such as lighted candles on or near the device. The product shall not be used in damp or wet locations, next to a bathtub, sink, swimming pool or any other similar conditions.

Using the product

Power Box DS2 Sources is designed to power a wide range of DC-powered Pro-Ject products except of power amplifiers, integrated amplifiers & receivers.

Make all connections whilst the Power Box DS2 Sources is **switched off or disconnected from the mains**.

Interconnection cables are included in the packaging. Original power supplies are no longer required.

In case of any doubts, consult user manuals of all connected products or ask your dealer.

9V output : CD Box S, CD Box DS2 T, MaiA CD, DAC Box S FL, DAC Box S USB, Media Box S, Stream Box DS/DSnet, Bluetooth Box S, USB Box S+, Tuner Box S, Remote Box S.

18V output : Most of the rest of products except of power amplifiers, integrated amplifiers and 5V products of S2 line.

15V turntable output : All of the Pro-Ject DC-powered turntables.

Trigger connection

Power Box DS2 Sources is equipped with 12V trigger-out socket (jack 2.5mm) to turn on/off a Pro-Ject product with trigger input socket.

Do not use the trigger output for any other connections for which it is not designed.

Main power switch

The toggle switch on the front panel turns the unit on or off. The blue LED above the switch shows that the unit is switched on.
