

# VC-E2

## Compact Record Cleaning Machine

- Improved cabinet design
- Magnetic clamp for quicker cleaning
- Improved vacuum steam outlet
- Self-adhesive arm strip for better cleaning
- Wash it 2 cleaning fluid
- 5mm composite aluminum panels
- Super-fast & super-strong cleaning
- Removes cleaning fluid residue-free
- 0.5L tank for spent cleaning liquid
- Completely dry records within 2 rotations
- Eco-friendly alcohol-free cleaning fluid
- Removes static load of vinyl records
- Clamp seals record label from cleaning fluid
- Made in Europe

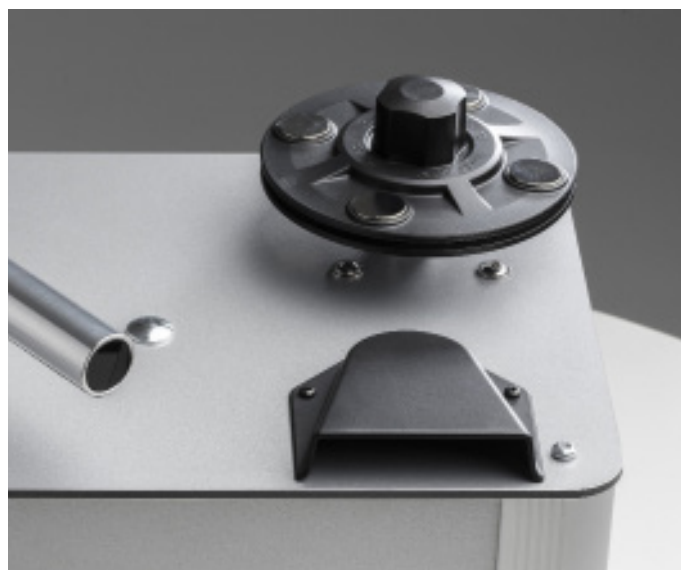

<b>Cleaning speed:</b>	30 RPM
<b>Included accessories:</b>	Brush Vacuum Arm Self-Adhesive Arm Strip Magnetic clamp Wash it 2 (100ml) Power cable
<b>Power connection:</b>	110/120 or 230/240 Volt 50 or 60 Hz
<b>Power consumption:</b>	230V/800W, 120V/650W
<b>Dimensions:</b>	310 x 266 x 210 mm (W x H x D)
<b>Weight:</b>	6.5kg

## The New E2 Record Cleaning Machine

The VC-E2 is our new compact record cleaning machine with new & superior features.

Vinyl records need dedicated maintenance. Dry-brush cleaning before playing the record is good for removing dust, but to effectively clean the grooves, wet-cleaning is a must. Accordingly, a suitable cleaning fluid is paramount. Alcohol-based cleaning fluids can be abrasive to the finer aspects of the grooves, which is why we designed our new eco-friendly alcohol-free cleaning fluid called Wash it 2. Our new Wash it 2 is a pre-mixed liquid so you no longer need to dilute the concentrate yourself. This avoids the accidental use of unsuitable water and/or an unsuitable ratio. The pre-mixed Wash it 2 removes more margin for error in the cleaning equation.

The VC-E2 is very powerful and cleans records completely in one to two revolutions!

### Made in Europe

The new magnetic clamp not only seals the record label from cleaning fluid to avoid damage, it also speeds up the whole cleaning process. Place your record over the spindle, drop the clamp in place and you're ready to go (no more screw-down record clamp!).

The robust, easy-to-use metal arm is mechanically stable and focuses all suction power directly onto the record surface. Paired with a new self-adhesive arm strip, your records are cleaned to perfection.

The internal container (0.5 liters) collects used fluid and emptying the tank is effortless. When using Wash it 2 cleaning solution, the fluid readily evaporates too, meaning the container rarely needs emptying. If you have many records to clean, we advise having a look at our premium VC-S3 machine as well.

The new VC-E2 is made in Europe with high quality materials and in excellent build-quality. With many practical features and excellent mechanical operation, the VC-E2 effectively combines industrial design appeal with an easy solution to great sound from your vinyl records.
